### AUDITOR'S REPORT

---

Kittery, Maine, Feb. 12, 1923.

I have this day examined the books and accounts of the Selectmen, Assessors and Overseers of the Poor of the town of Kittery for the year ending February 7, 1923, and I hereby certify that they are correct.

Respectfully submitted,

RAYMOND R. HOBBS,

Auditor

## REPORT OF THE PHYSICAL DIRECTOR

---

Public Health Nursing Service of Kittery and Eliot:

I herewith submit my report of work done from Jan. 1, 1922 to Dec. 31, 1922.

Number of New Cases .....	36
Number of prenatal and obstetrical cases ..	19
Number of medical cases .....	45
Number of surgical cases .....	22
Total number of calls made .....	825
Infant welfare visits .....	222
Amount received from patients .....	\$231 55

Report of school work done for same time:

Number of visits to schools .....	151
Number of children examined .....	1370
Number of home visits of school children ..	10
Time spent in schools .....	246 hrs.
Health talks to school children .....	142
Inspection of buildings .....	28

The Mitchell building was thoroughly fumigated during the Christmas recess.

The children in the Austin and Wentworth sections were examined three times during the year on account of Pediculosis. With the co-operation of the teachers and the Health Officer, I trust that problem has been overcome.

I would suggest that better drainage at the Austin school building be installed so the water may be drained from the basement more readily.

I very much appreciate the co-operation of teachers and pupils in health measures in the last year in all districts.

Public Health is not a fad or a fancy, but one of the great fundamental activities of the State, and the key-note to progress and success.

Respectfully submitted,

LAURA BAXTER, R. N.,

Public Health Nurse

## REPORT OF THE HEALTH OFFICER

---

To the Board of Selectmen, Kittery, Maine,  
Gentlemen:

The Health Officer has the honor to submit to you the third annual report of the Health Department for the year ending, February 1, 1922.

The number of contagious diseases were as follows:

Pneumonia .....	5
Scarlet Fever .....	7
Chicken Pox .....	8
Measles .....	1
Influenza .....	1
Tuberculosis .....	1
<hr/>	
Total .....	23

### NUISANCES

A large part of the work has been the abatement of nuisances, twenty-four complaints having been made and in all cases satisfactory results were obtained.

### COMMUNICABLE DISEASES

During the past year Kittery has been remarkably free from commutable diseases and no disease at any time been epidemic.

The Health Department wishes to express its appreciation for the assistance given by the District Nurse.

Respectfully submitted,  
ISAAC H. LAMBERT,  
Local Health Officer.

## REPORT OF ROAD COMMISSIONER

---

The roads in the town are in bad shape, the necessary repairs to make them passable in the spring requires the expenditure of nearly all the available appropriation and many of the citizens never see where the money is expended after the roads are made passable.

It is recommended that a part of the appropriation should be expended in permanent roads and bridges.

Owing to the feeling that has developed in North Kittery the past year, I have had very little to do, or say, in regard to roads, however I have done the best I could under the present conditions.

Respectfully submitted,

S. P. KNIGHT,

Road Commissioner.

## REPORT OF THE FIRE DEPARTMENT

---

### The Selectmen:

The Fire Department of Kittery is in a pretty fair condition. All three trucks are in running order, and each section of the town has a well organized fire company. The whistle at the Point has had a new tank installed and is working quite satisfactory.

The department has received 700 feet of new double jacketed hose which was purchased at a very good price and fully replaces the hose which has been giving out the last two years. Part of it has been put on each truck.

The chemical tanks for the large trucks have been received and the one for the village truck is being installed and they will be a very valuable addition to the town's fire protection. Experience has shown the great value of the chemical method of fighting fires both for chimney and small fires, but especially for outlying parts of the town where there are no hydrants. The use of the Ford chemical engine at the Wallace Main farm in April saved the buildings and payed for itself several times over. It has always been ready for use and can quickly get to the fires.

The department has answered twenty alarms during 1922, nine of them whistle or siren alarms while eleven have been still alarms. The property endangered, etc., is as follows:

Value of buildings or structures .....	\$ 28,600 00
Damage to buildings, etc. ....	2,200 00
Value of contents .....	13,100 00

Damage to contents .....	\$800 00
Insurance paid .....	975 00

The only building totally lost was that of Joe Kolgski at North Kittery in March, and while the place was too far gone, when discovered, for the department to do any good it proved that the trucks could get out in deep snows.

The most serious fire was that on the Kittery Point Bridge which nearly cut the town in two.

I would recommend that the same sum of money be appropriated for the department this year as last. The truck at the Point needs a new rear end and a thorough overhauling and the siren alarm at the Fore-side much have a brake applied if it is to be satisfactory. This will cost about \$175.00 and will enable the ringing in of box numbers so that anyone can easily count them.

The fire house at the Foreside will have to be heated another year the same as last year for meetings for the fire company, the American Legion, the G. A. R. and Sons of Veterans and the Parent-Teacher's Association until the new school is finished, it being so used 9 or 10 nights each month. Then, too, having heat in the basement ensures easy and quick starting of the trucks there. Some provision should be made for real heat at the firehouse at the Point, so that truck can be gotten out quickly.

I believe that the town should create a Fire Engineers' Department which should have supervision over all apparatus in the town and general supervision of the funds appropriated, the same as the School Committee.

I would recommend that the town elect one Fire

Ward who would be Fire Chief and that the two companies elect each an Assistant Chief. As soon as these are elected the Selectmen should appoint them Fire Wards and the three Fire Wards so provided should be a board of Engineers with the powers mentioned above. This would put fire department matters into the hands of firemen and should tend towards a better feeling between the two sections as the assistant chiefs would be the real heads of each company with full power over their companies and each section of the town would be equally represented on the board and have say in the expenditure of funds.

Respectfully submitted,

H. O. FARRINGTON,

Fire Ward.

Kittery, Me., Feb. 10, 1923.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the Superintending School Committee of Kittery:

I herewith present to you and to the citizens of Kittery my annual report as superintendent of schools.

There are in the town of Kittery, according to our school census of 1922, 924 children between the ages of 5 and 21. Of this number 775 have attended school in Kittery during the past year and a few have attended schools or colleges elsewhere. A table found at the end of this report shows the distribution of these pupils among the different schools. This table also gives information regarding the teachers employed.

A comparison with the table printed last year shows that, while there has been some shifting from one school to another, the number of pupils in all schools has remained practically the same as last year. The teaching force in the graded schools has also remained practically the same as last year, although a few changes have been made. At the Wentworth School two changes were made, at the Austin one and at the Shapleigh one. I feel that, considering the salaries we are paying, we are very fortunate in having as good teachers as we now have.

The quality and quantity of the work done in all of our schools has, on the whole, been very satisfactory. It is unfair to judge the teaching ability of a teacher wholly by the results which she obtains, unless we know the abilities of the pupils with whom she is working. Accordingly, intelligence tests have been given in nearly all of the schools to determine what may rea-

sonably be expected of the teacher in each school. Results show that, while our pupils average well, there is a great deal of difference in the natural abilities of different pupils. Considering 100 as the intelligence quotient of the normal pupil, we have a few who scale as low as 60 and a few as high as 150. When children with abilities so far apart are found in the same grade, the work done by each must be different. To expect a teacher to teach such pupils so that they will meet the same standard in the same time is to expect the impossible. Last year the pupil passing the highest intelligence test in the two towns was found at Kittery Point. This year the honor goes to a York Village pupil.

I have visited the Academy as often as time has permitted and have found things running along very well. The school has now reached the size, however, where another teacher is very greatly needed.

Some quite extensive repairs have been made during the past year. The most expensive of these have been; painting the Mitchell building, building a fence at the Shapleigh and purchasing new seats for grades two and three at the Wentworth. These new seats will be moved to the new building when it is completed.

Since the new building is not yet completed, it does not seem best to attempt any definite report upon it at this time. The building will probably be completed and ready for use early in April but it will not probably be best to attempt to use it until another fall. The changing from one building to another would cause considerable confusion and the time that the new building could be used this spring would be too short to pay for the extra trouble.

Just how the grades will be arranged in the new

building has not been definitely settled. There has been talk of putting the ninth grade pupils in the Austin and Wentworth districts together in the new building. This would relieve the congestion at the Austin school but might lead to some difficulties in connection with transportation.

Our needs for another year seem to be about the same as last year except in the Maintenance account. One more teacher will have to be employed next year and it is very probable that our fuel and janitor service will cost more in the new building than in past years. We have quite a large balance on hand, however, and I believe that an appropriation of \$12,000, the same as last year, will be sufficient. It will not be safe to cut that appropriation.

It seems as though we must have a larger appropriation for Maintenance than we have had in the past. The Austin school is greatly in need of paint on the outside. About \$100 should also be laid out on the grounds at this building, removing dangerous ledge and repairing fences. At the Mitchell school an auxiliary heater should be installed. The heaters in this building are too small for the work required and have never heated the building properly. The only solution seems to be a steam heater with enough radiators in each room to make up what the present heaters lack. Such a heater would probably cost \$1,000.

The Safford building is in bad shape and must be remodeled to meet the state law before September 1st, 1924. I believe that we ought to pay out at least \$300 on that building this year. No provision has been made for grading the lot around the new building and, if anything is done, the money will have to be taken from the Maintenance account. These special needs, together

with our regular bills will call for an appropriation of at least \$2,500.

The appropriation for text books should be the same as last year.

The following is a list of appropriations recommended by the school committee:

Common Schools	\$12,000.00
Text Books, Common Schools	1,200.00
Text Books, High School	700.00
Maintenance	2,500.00

Respectfully submitted,

E. S. FOSTER.

## REPORT OF THE PRINCIPAL OF ROBERT W. TRAIPI ACADEMY

---

Members of the Board of Trustees,  
Robert W. Traip Academy,

Gentlemen:

It is my pleasure to report to you for the first time in regard to the needs and the progress of the work at the Academy.

As this is my first report, and as this is not only a report to the members of the Board of Trustees, but to the people of Kittery as well, perhaps it would not be amiss to give a few general impressions which appeal to a new comer. First I wish to say that I am greatly pleased with the young people with whom I have to deal. As a group, they are greatly superior to any other group of high school students with which I have ever before come in contact. Honest, industrious, and with good character and high ideals, they reflect a great deal of credit on the parents, the churches, and the teachers in the grade schools. The fine modern Academy building is indeed a monument to the donator and a valuable asset to the town. The interior of the building, in spite of the sixteen years service, is practically without a blemish. Mr. Hodgdon deserves a great deal of praise for his splendid care. The people of Kittery have been loyal in their support of the school and have cooperated in every way in aiding the students to make a success of whatever they undertake.

The school is most fortunate in retaining the ser-

vices of the three assistants. Mr. Francis R. Morse is doing splendid work as head of the commercial department. The students in this department are well fitted to accept positions as commercial workers in business offices. Mr. Maurice E. Currier, the teacher of English and French, is handling these courses in a very capable manner. Mr. Currier is also aiding the students to publish a school magazine which will appear within a few weeks. Miss Florence A. Doughty, in her subjects of Latin, History and Civics, is an earnest and sincere worker and her efforts are being amply repaid by the results obtained in these subjects. On the whole, I have found the teachers very capable, ready to cooperate, and of a moral character which can but have a truly beneficial influence on the pupils. My only criticism is that both Mr. Morse and Mr. Currier live outside of the town and therefore their influence and help in many of the extra-curricular activities of the school is lost. I hope that the services of these three teachers may be retained next year.

This brings me to the point where I can well mention one vital need of the Academy, namely: another teacher. Last year, with an enrollment of 104 pupils, the need of the fifth teacher was felt. This year, with 124 pupils enrolled, the need of an additional teacher is vital to the best interests of the school. The lack of an adequate teaching staff means over-worked teachers, classes which are entirely too large, the inability to offer any optional subjects, and the lack of time for proper supervision of extra-curricular activities. I trust that the people of Kittery will remember that the size of the school has increased by approximately twenty per cent. since last year, and in their appropriation for

the school at the March meeting will make provision for the hiring of an additional teacher.

I wish to call the attention of the parents to the importance of aiding their children to select the proper course on entering the Academy. I was surprised to find the large number of boys in the commercial course. Unless these boys continue commercial work after leaving school, their efforts while at the Academy have, to a large extent, been wasted. The salaries paid to stenographers and typists are not sufficient to warrant the average boy enrolling in the commercial course. The better paid positions in the commercial field are in general only open to those who have had a thorough preparation at a business college or university. The three courses offered are the college preparatory, the general, and the commercial. Either of the first two courses is adequate for entrance to a college or university. The college preparatory course includes Latin. The general course prepares for practically all colleges and includes a study of those subjects which it is believed will be the most valuable to the pupil after leaving school. In general, this is the course which the average student should select. Only those young people who are quite thoroughly convinced that they will do commercial work after leaving school should be encouraged to take the commercial course.

The value of a good education cannot be overestimated. It is interesting to note that about seventy-five per cent. of the present senior class have indicated their intentions of continuing their studies in normal schools and colleges after completing their courses at the Academy. That these students may, in most cases, enter the higher institutions without the necessity of taking en-

trance examinations is a good reflection on the scholastic standing of the school.

In regard to athletics at the Academy it is quite evident that they are playing an important part in creating a proper school spirit among the pupils. The boys have taken a very active interest in both football and basketball and in spite of the fact that this year has been the first that the Academy has been represented by teams of these sports, a very creditable showing has been made. The promotion of properly supervised athletics helps to keep the boys interested in their school work and tends to prevent their dropping out to go to work. This has been made evident this year in the fact that only one boy has dropped out for this purpose.

It is my purpose to cooperate in every possible way with the parents in the welfare of their children who are students at the Academy, and in this report I wish to extend a hearty invitation to all parents and friends to feel free to visit the school at any time.

I am very grateful to the Board of Trustees for the support which has been given. It is my earnest hope that there can be a continued and increased cooperation between the people of Kittery, the Trustees, and the Principal, to the end that the young people of the community may be afforded instruction which is continually being bettered.

Respectfully submitted,

ROBERT G. BLANCHARD

## WARRANT FOR TOWN MEETING

---

State of Maine—York ss.

To Samuel Hodgdon, a Constable in the Town of Kittery in said County. Greeting:

In the name of the STATE OF MAINE, you are hereby required to notify and warn the inhabitants of said town of Kittery, qualified by law to vote in town affairs to assemble at Wentworth Hall, so called in said town, on the twelfth day of March, A. D., 1923 at nine o'clock in the forenoon, to act on the following articles, to wit:

**First.**—To choose a moderator to preside at said meeting.

**Second.**—To choose a town clerk, selectmen, assessors, overseers of the poor, treasurer, school committee, collector, auditor, truant officer, constables, fire wards, and all other necessary officers for the ensuing year.

**Third.**—To see what sum of money the town will vote to raise for contingent expenses.

**Fourth.**—To see what sum of money the town will vote to raise for roads and bridges.

**Fifth.**—To see what sum of money the town will vote to raise for the support of its poor.

**Sixth.**—To see what sum of money the town will vote to raise for common schools.

**Seventh.**—To see what sum of money the town will vote to raise for a free high school.

**Eighth.**—To see what sum of money the town will vote to raise for the maintenance of school property.

**Ninth.**—To see if the town will authorize its superintending school committee to contract with and pay an amount not exceeding the amount raised for the maintenance of the Free High School, to the trustees of the Robert W. Traip Academy, for the tuition of its pupils, in accordance with Section 84, Chapter 15 of the Revised Statutes of the State of Maine.

**Tenth.**—To see what sum of money the town will vote to raise for text-books for common schools.

**Eleventh.**—To see what sum of money the town will vote to raise for text-books for free high school.

**Twelfth.**—To see what sum of money the town will vote to raise towards paying its debt.

**Thirteenth.**—To see what sum of money the town will vote to raise to pay interest on its debt.

**Fourteenth.**—To see what sum of money the town will vote to raise for Memorial Day.

**Fifteenth.**—To see what sum of money the town will vote to raise for hydrant service.

**Sixteenth.**—To see what sum of money the town will vote to raise for the fire department.

**Seventeenth.**—To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to state aid, as provided in section 19 of chapter 25 of the Revised Statutes of 1916.

**Eighteenth.**—To see if the town will appropriate and raise the sum of \$930.00 for the improvement of the section of state aid road as outlined in the report of the state highway commission, in addition to the amounts regularly raised for the care of the ways, highways, and bridges; the above being the maximum which the town is allowed to raise under the provisions of section 18, chapter 25, of the Revised Statutes of 1916.

**Nineteenth.**—To see what sum of money the town will vote to raise to clear its roads when blocked with snow.

**Twentieth.**—To see if the town will instruct its treasurer to hire money when necessary, to pay its bills when due.

**Twenty-First.**—To see what sum of money the town will vote to raise for street lights for the ensuing year.

**Twenty-Second.**—To see what sum of money the town will vote to pay for labor on its road.

**Twenty-Third.**—To see if the town will vote to raise the sum of \$200.00 for the purpose of cutting and destroying old apple and cherry trees along the limits of the town highways as per section 11 of chapter 16 of the Public Laws of 1907, as amended by chapter 34 of the Public Laws of 1909, and further amended by Chapter 84 of the Public Laws of 1911.

**Twenty-Fourth.**—To see if the town will appropriate a sum of money for the construction of sidewalks.

**Twenty-Fifth.**—To see if the town will vote to raise the sum of \$3,500 to repair and tar its state aid highways.

**Twenty-Sixth.**—To see if the town will vote to raise the sum of \$250.00 for its part of repairing and tarring the State or Post Road.

**Twenty-Seventh.**—To see if the town will vote to appropriate the sum of \$500.00 towards the employment of a Physical Director for the ensuing year. The foregoing upon petition of A. Dennett and others.
